

Water Activity Measurement Fast, Accurate, and Portable.

The Decagon *Pawkit* is:

- **Easy to use** - Load & close, 1 button readings, quick to calibrate.
- **Fast** - Results in 5 minutes, displays clearly water activity and sample temperature together.
- **Portable**- battery operated, lightweight and small, the *Pawkit* can take readings in multiple locations, throughout the plant or in the laboratory.
- **Accurate**- The ultra-compact *Pawkit* delivers accuracy of $\pm 0.02a_w$.

The Decagon *Pawkit* was designed for quick checks by Health Inspectors, Food Scientists, and QC managers in foods, pharmaceuticals, and cosmetics. It gives you the ability to check a_w and make decisions on the spot!

To find out more information on the Decagon *Pawkit* and how it can work for you, please contact Arrow Scientific (02) 9808 3735, fax (02) 9808 2722
